^ Annualized return is calculated from inception based on published NAV.

Performance is calculated on NAV to NAV in base currency with dividend reinvested and net of fees. All indices are for reference only. Past Performance is not a guide to future performance and may not be repeated. The value of investments and the income from them may go down as well as up and investors may not get back the amounts originally invested. Additional costs, including transaction fees, will also be incurred. These costs are paid out by the Fund, which will impact on the overall return of the Fund.
